TO CHANGE SIZES

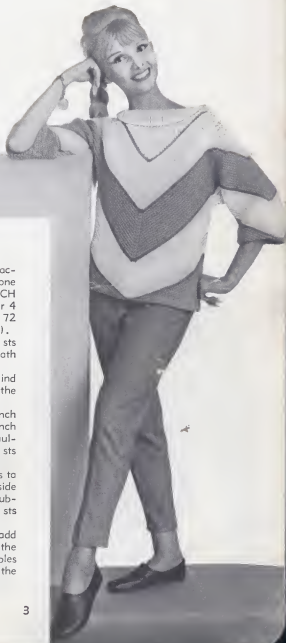

FRONT AND BACK: Add the sts (according to st gauge) needed for one inch to both back and front for EACH size larger. (i.e. When gauge calls for 4 sts = 1 inch. Size 16 would require 72 sts; size 18 would require 76 sts, etc.). For EACH size smaller subtract the sts necessary to make one inch from both back and front.

Follow directions given to armholes. Bind off according to directions distributing the added or subtracted sts evenly.

Work armhole of back and front $\frac{1}{4}$ inch longer for each larger size and $\frac{1}{4}$ inch less for each smaller size. Bind off shoulder according to directions distributing sts as before.

SLEEVES: For one size larger add 4 sts to cuff, then bind off 2 sts more each side at underarm. For one size smaller subtract 4 sts from cuff, then bind off 2 sts less each side at underarm.

NOTE: When working with a pattern, add or subtract (according to size desired) the same number of sts or repeats or multiples of pattern as needed according to the necessary inches required.
